To whom it may concern

RE: REFERENCE LETTER

ARRCC is the Interior Architectural and Décor extension of SAOTA, the internationally acclaimed architectural firm, which collectively comprises of over 200 employees. I have been at ARRCC since 2005 and was appointed as a Director in 2013.

We were very impressed with Craig's Student portfolio and offered him a Junior Interior Design position within our company. Craig started at ARRCC as a Junior Interior Designer on the 9th of January 2017.

During his 3 month employment at ARRCC, Craig worked on various local and international projects for high profile clients and showed incredible conceptual sketching skills & a keen eye for design.

His responsibilities included liaising with consultants; three-dimensional design and space planning & documenting designs into presentation packages for client approval, within a deadline driven environment.

We wish Craig well on furthering his career in the industry; and are certain that he'll flourish if given the opportunity to do so.

Best regards

Michele Rhoda
